

Be a part of the conversation!

**9 days left!** Early Bird Registration Rate ends on November 6

Don't miss this great professional development! This is your chance to network and learn from other experts in the field of best practices. There will be representatives from the Best Practice Spotlight Organizations and other health care sectors!

**Here are key topics related to LTC Homes that will be covered by the presenters:**

- Changing practice and culture: Best practices to reduce restraint
- Quality improvement in long-term care: Improving resident safety
- Transforming nursing through knowledge in a LTC setting and managing its challenges
- Empowering staff and residents for quality care at the bedside in Algoma Manor using best practice guidelines
- Building collaborative practice in a nursing team to promote a healthy work environment
- Diabetes 101: an innovative approach to bringing diabetes best practices to front line staff
- Implementing stroke best practices within long-term care
- Creating healthy work environments: Patient safety and nurse fatigue
- Chronic disease management update
- Presentations on the new best practice guidelines
- and much more!

This is also a wonderful opportunity for you to consult and discuss your plans for best practice implementation with the LTC Best Practice Coordinators by joining them at the booth. [Click here to view who the Best Practice Coordinators are in LTC.](#)

**Register today!**
